***Allowable Subject Matter***

1. Claims 1-5 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior arts made available do not teach or fairly suggest, alone or in combination, a thermal flowmeter comprising a temperature control circuit for controlling a temperature of the heating resistor, a temperature sensor for measuring the temperature in the casing that is supported to a wall surface of the intake pipe and supporting the flow rate measuring element; and a heating temperature control means in form of a fixed resistor connected in parallel to a temperature compensation resistor. The prior art further fails to teach or disclose a thermal flowmeter including a resistor having a resistance temperature coefficient different from the temperature coefficient of the first temperature measuring resistor and the second temperature measuring resistor, being connected to the flow rate detecting circuit to change an offset voltage provided as an output voltage of the flow rate detecting circuit at a flow rate of zero to be changed depending on an ambient temperature.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to HARSHAD PATEL whose telephone number is (571)272-2187. The examiner can normally be reached on Monday-Thursday (6:30 AM-5:00 PM).
